

## Biography

Described as "the result of an illegitimate love affair between Black Stone Cherry and Steel Panther", Bootyard Bandits are the UK's "most wanted" (and quite possibly, only) country metal band.

Formed in Worcester by ex-members of The Defiled, Grim Reaper, Fury and Villains, these cowboys come armed with an arsenal of heavy, catchy country anthems and a live show like no other t'boot.

Having toured extensively throughout Europe and the UK with the likes of Alestorm and Massive Wagons, this quintet released their fifteen track debut album 'Songs For The Saddle Sore' in July 2021.
